d <input type="radio"/>	Hidden text
e <input type="radio"/>	Toggle button

Example Reports

Test: HTML5

This report is confidential and its contents are intended to assist in the prediction of an applicant's work behavior. If you would like more information about this interpretive report or other products that SHL offers, please contact your account representative.

Score: 2.99

Proficiency Level: Proficient (2.51 - 3.50)

The candidate has mastered the basic concepts of HTML5, including:

- Data Elements
- Page Structure
- Tags

The candidate demonstrates a clear understanding of intermediate HTML5 concepts, such as:

- Document Styling
- Resource Handling

The candidate may have some knowledge of more advanced HTML5 concepts such as:

- Multimedia Elements
- Application APIs
- User Interactions

At the Proficient level, the candidate will be capable of working on most projects involving HTML5 with minimal assistance. However, the candidate will probably require more assistance with advanced concepts.

Percentile Comparisons

The percentile score indicates how well the candidate scored relative to other candidates in the comparison population indicated by the score.

Percentile Comparisons							
	<table><tr><td>Low</td><td>Medium</td><td>High</td></tr><tr><td>25</td><td>70</td><td>100</td></tr></table>	Low	Medium	High	25	70	100
Low	Medium	High					
25	70	100					
Global Population	61						
Company Population	38						

Detail Item Results						
Order	Question	Topic	Description	Skill Level	Time Taken (Seconds)	Is Correct
1	HTML5_88_0325	Page Structure	Grouped Elements	Basic	36.6	Yes
2	HTML5_88_1705	Application APIs	Caching and State	Advanced	76.2	No
3	HTML5_88_0365	Page Structure	Document Parts	Basic	27.2	Yes
