Score: 2.49

Proficiency Level: Basic (1.51 - 2.50)

The candidate demonstrates an understanding of basic concepts of Medical Terminology, including:

- Male and Female Reproductive System
- Circulatory System
- Psychiatry/Other
- Renal/Urinary System

The candidate may be proficient with intermediate Medical Terminology concepts, such as:

- Nervous System
- Musculoskeletal System
- Integumentary System
- Endocrine System

The candidate will likely be challenged by more advanced Medical Terminology concepts such as:

- Hepatobiliary System
- Digestive System
- Respiratory System

Candidates scoring at the Basic level would benefit from formal training or self study in order to become more effective in Medical Terminology.

Percentile Comparisons

The percentile score indicates how well the candidate scored relative to other candidates in the comparison population indicated by the score.

Percentile Comparisons

	Low	Medium	High
Percentile	33	70	100
Global Population	9
