Example Reports

Test: Microsoft Windows 2008 Active Directory
 This report is confidential and its contents are intended to assist in the prediction of an applicant's work behavior. If you would like more information about this interpretive report or other products that SHL offers, please contact your account representative.

Score: 2.82
Proficiency Level: Proficient (2.51 - 3.50)
 The candidate has mastered the basic concepts of Microsoft Windows 2008 Active Directory, including:

- Core Technologies
- Management
- Troubleshooting

The candidate demonstrates a clear understanding of intermediate Microsoft Windows 2008 Active Directory concepts, such as:

- Install and Configure
- Backup and Recovery
- Security

The candidate may have some knowledge of more advanced Microsoft Windows 2008 Active Directory concepts such as:

- Design
- Group Policy

At the Proficient level, the candidate will be capable of working on most projects involving Microsoft Windows 2008 Active Directory with minimal assistance. However, the candidate will probably require more assistance with advanced concepts.

Percentile Comparisons
 The percentile score indicates how well the candidate scored relative to other candidates in the comparison population indicated by the score.

Percentile Comparisons		Low	Medium	High
		30	70	100
Global Population	43	◆
