Score: 3.4
Proficiency Level: Proficient (2.51 - 3.58)
The candidate has mastered the basic concepts of Microsoft Windows 7 Desktop Administration, including:

- Security
- Internet and Networking
- System Applications

The candidate demonstrates a clear understanding of intermediate Microsoft Windows 7 Desktop Administration concepts, such as:

- System Configuration
- Performance Information and Tools
- System Management
- Desktop Management

The candidate may have some knowledge of more advanced Microsoft Windows 7 Desktop Administration concepts such as:

- Advanced Administrative Tools
- Group Policy Configuration
- Installation

At the Proficient level, the candidate will be capable of working on most projects involving Microsoft Windows 7 Desktop Administration with minimal assistance. However, the candidate will probably require more assistance with advanced concepts.

Percentile Comparisons
The percentile score indicates how well the candidate scored relative to other candidates in the comparison population indicated by the score.

	Low	Medium	High
Global Population	50	70	100
Company Population			

Global Population: 68
