

## **OO Design Patterns**

## **Assessment Fact Sheet**

| Overview | The OO Design Patterns test measures a candidate's knowledge of working with and employing design patterns. This test is designed for experienced object oriented programmers. |                            |
|----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|
|          | Job Family/Title                                                                                                                                                               | Programmers                |
| Details  | Average Testing Time (minutes)                                                                                                                                                 | 35 minutes                 |
|          | Allowed Time (minutes)                                                                                                                                                         | 90 minutes                 |
|          | Maximum Number of Questions                                                                                                                                                    | 30 questions               |
|          | Number of Sittings                                                                                                                                                             | One                        |
|          | Designed for Unproctored Environment                                                                                                                                           | Yes                        |
|          | Question Format                                                                                                                                                                | Multiple Choice - Adaptive |
